## PROFILE

Junior Python Developer with expertise in Python, Django, Django Rest Framework, FastAPI, Flask and SQL, and a foundational understanding of JavaScript and React.js. Skilled in developing, testing, and maintaining APIs, building robust backend systems, and creating scalable, secure web applications. Passionate about continuous learning and delivering reliable software solutions.

## PROFESSIONAL EXPERIENCE

### Junior Python Developer, *Meta Multiples Pvt. Ltd*

Jul 2024 – present

- Developed, tested, and maintained RESTful APIs using Django and Django Rest Framework, ensuring scalability and reliability.
- Conducted API testing using tools like Postman to validate functionality, performance, and security.
- Debugged and resolved issues in development and production environments to ensure seamless application performance.

### Trust & Safety Associate, *Accenture Solutions Pvt. Ltd*

Jun 2022 – Aug 2023

- Maintain the integrity, safety, and compliance of the platform or community.
- Worked with various teams to implement and enforce policies that protect users.
- Won the 'Encore Award' for best performance in the Team

## PROJECTS

### NewsWave – Advanced News Aggregator Web Application

**Tech Stack:** React.js, Tailwind CSS, Django, DRF, Celery, PostgreSQL | Deployed on Vercel & Render

- Developed a full-stack news aggregation platform with real-time data fetching and personalized news recommendations.
- Integrated article summarization (NLP) and multilingual support for better accessibility.
- Implemented features like news saving, sharing, and translation.
- Used Celery for background tasks and designed responsive UI and optimized backend for scalability and performance.

### Social Media APIs

**Tech Stack:** Django, Django Rest Framework, PostgreSQL | Tools: Postman

- Developed RESTful APIs with JWT authentication for secure user access.
- Implemented follow, like, and comment functionalities for user interaction.
- Designed a feed system that displays posts based on user followings.
- Built efficient post creation and retrieval APIs with optimized queries.

### Pizza Delivery

**Tech Stack:** Python, FastAPI, PostgreSQL | Tools: Postman

- Implemented user authentication, real-time order tracking, and secure database operations.
- Designed and tested API endpoints using Postman to ensure reliability and performance.

## SKILLS

**Languages:** Python | Javascript

**Backend:** Django | Django Rest Framework | FastAPI | Flask

**Frontend:** HTML | CSS | Tailwind CSS | JavaScript | React Js

**Database:** SQL | Mongo DB | Firebase

## EDUCATION

### Full Stack Development, *Develearn Institute Thane*

Dec 2023 – Jan 2025

### Master Of Science (Information Technology),

*Mumbai University*

Jun 2023 – Apr 2025

### Bachelor Of Science (Information Technology),

*Mumbai University*

Jun 2019 – Apr 2022

CGPI : 9.15

## CERTIFICATES

- Python Programming [🔗](#)
- SQL [🔗](#)
- Frontend Development (Ongoing)
- MS-CIT

## AWARDS

### Encore Award, *Accenture Solutions Pvt. Ltd*

- Best Performer in the Team
